

e-petition on .22 competition pistols

As you may be aware the government has instituted a scheme whereby if 100,000 people register with an e-petition on a government website, they are obliged to hold a parliamentary debate.

Right now, there is an e-petition on the legalisation of .22 competition pistols; banned since 1997. The Chairman, Trustees and I would encourage you to join in supporting this e-petition. The link is attached here:

<https://submissions.epetitions.direct.gov.uk/petitions/360>

When you sign up, you will receive an email in response. Please note that your vote will not count until you respond to that email.

Regards

Derrick Mabbott

Acting Chief Executive and Secretary General
